

# PROGRAMS BUILT TO HELP YOU TAKE ADVANTAGE OF OPPORTUNITIES.

## LINES OF CREDIT

Dealing with the unexpected is a way of life on the farm, whether it's equipment repairs, the weather, markets or the local business environment. Having a line of credit in place can help you take advantage of business opportunities and ease the pain of an unforeseen breakdown. DFA Financing, provided by Agri-Max Financial Services, can help.

Our lines of credit can provide the funds you need, when you need them. Have funding in place when your seed dealer offers their best discount, or ensure you can get back to work quickly when you have equipment problems. Whatever your needs, all it takes is one call.

## BENEFITS OF SECURING A LINE OF CREDIT:

- Negotiate the best price on seed, fertilizer, equipment repairs and more
- 12-month payback allows you to spread your cash flow over an entire year
- Capital lines for cattle and equipment feature a flexible, multiyear payback
- Avoid delays in getting the cash you need
- Prepay for year-end purchases as part of your tax planning strategy
- A revolving line for ongoing operating and capital needs may be available

## SET UP A LINE OF CREDIT FOR YOUR DFA FARM SUPPLIES PURCHASES

A special line of credit is available for your purchases with our partners at DFA Farm Supplies. Qualified borrowers can get quick access, and if you make purchases of at least \$5,000 in the first six months, we'll waive the document prep fee. Call DFA Financing at 1-866-283-4629 to learn more.
