

# REDUCED-RATE FINANCING FOR EFFICIENCY PROJECTS

## FINANCING THE FUTURE OF YOUR DAIRY

Improving the efficiency of your dairy is no small task. Whether it's a single asset project, or a large capital investment, DFA Financing, provided by Agri-Max Financial Services, is here to help you ensure your dairy is sustainable for the next generation.

DFA makes it easy to invest in the future of your dairy. Our new loan program is designed specifically for efficiency or technological improvement projects – large or small – that you choose to make on your farm.

This loan program will offer qualified members a reduced interest rate. Applying for a loan is easy; simply call your local loan officer or go online to fill out our easy application. Our loan officers will work with you through the process start to finish.

In addition to our competitive financing programs, we can connect you with our partners at DFA Farm Supplies, DFA Energy and Dairy One for products, services and consultation.

## ELIGIBLE TECHNOLOGY AND EFFICIENCY IMPROVEMENTS\*:
