

## PROVIDING BIG SAVINGS ON FANS AND LIGHTING.

THAT'S MORE COOPERATIVE.

DFA Farm Supplies and Big Ass Solutions are combining efforts to help you improve production, safety and cow comfort in your barn. Since 1999, Big Ass Fans has kept livestock cool with its signature overhead fans and high-quality, portable directional fans. With an expanded product line that includes wash-down LED lights and advanced controls, Big Ass Solutions offers energy efficient solutions for moisture control, air quality and comprehensive lighting.

### Special pricing on a variety of solutions, including:

**Powerfoil® X3.0** is Big Ass Fans' largest, strongest and most durable industrial fan. With programmable settings, a maintenance-free NitroSeal Drive gearbox and a non-prorated, 15-year warranty, Powerfoil X3.0 delivers maximum airflow with minimal effort. Powerfoil X3.0 features a patented system of aerospace-designed airfoils and winglets, and the NitroSeal Drive gearbox requires no maintenance — ever.

**Big Ass Light Washdown LED** is wet-rated IP-66, so it's ideal for environments where a hose-down is part of life. It's bright enough to perk up the darkest spaces, and a wide range of mounting options means you don't have to worry about your lights being off kilter.

### To start saving on fans and lighting:

- Call us to set up a consultation with Big Ass Solutions' agriculture specialist
- Big Ass Solutions will provide a custom recommendation for your facility
- Receive your custom quote with special, member-only pricing, based on the recommendation
- We will invoice you directly through your existing account
